From Our Readers

May 28, 1970

On Page 12 of the May 15, 1970 edition of your publication "The Dinghy" there appears an item "Boatowners Warned" in which Ed Nichols, Executive Director of Southern California Marine Association is reported as saying that AB 2221 (Schabarum) will double the cost of boat registration, and that "the boatman will not only have to pay twice the amount paid in the past, but instead of renewing every three years, he will have to do so every year."

AB 2221 (Schabarum) does none of these things. It does not increase registration fees nor impose other costs on the boat owner, and it does not affect the registration period.

What it does is provide that policy control in boat registration matters will remain with the Department of Navigation and Ocean Development as the State's boating agency, rather than with the Department of Motor Vehicles, the State's automobile agency.

Last year the Legislature enacted, and the Governor signed, AB 1827, which increased boat registration fees and also provided for annual registration beginning in 1972. The increase in revenues is to be used to finance local boating safety and enforcement programs.

The bill had wide support from the boating community and no opposition.

Very truly yours,

GEORGE A. ASKELUND
Chief Vessels Division
Dept. of Navigation and Ocean
Development, State of California

FREE BOATING CLASS

A free 12-lesson course in basic seamanship will be offered by the U.S. Coast Guard Auxiliary at 12933 Venice Blvd., Venice, beginning Monday evening, June 15, at 7:30 p.m.

Subjects will include maneuvering, marlinspike seamanship, aids to navigation, charts and compass, rules of the road, legal requirements, and safe motorboat operation. A Certificate of Completion will be awarded for successful completion of the final examination. Skippers attending are urged to bring their families.

Further information may be had by calling instructor Herbert Packard, Jr., at 292-8844.

SUPER TRIMARAN

What may next year be the biggest trimaran in the Caribbean charter trade is the "Randy Tar", now nearing completion here at Marina del Rey.

From an idea inspired by Woody Brown and his Hawaiian "beach cats", builders Paul Murphy (photo below) and Bob Kuntz (opposite page) have thus far invested about four years of hard work and \$40,000 in hard cash in their Jay Kantola designed boat. Soon after this summer's end, if all goes well, they and it will be headed for Charlotte Amalie in St. Thomas.

Containing several such touches of

craftsmanship as the hand carved door (bottom photo), and a galley countertop of antique coins embedded in "Lusterock", the big trimaran is built for comfort as well as speed. Accom-

modations will include four double bed staterooms, an after cabin with king sized bed, four pull down bunks in the forward floats, and a table in the carpeted main salon (top photo) that will comfortably seat 15.

To be sailed with a 10' centerboard operated hydraulically from the cockpit, this tri hull is expected by designer

Kantola to be capable of pointing as high as 37 degrees off the apparent wind. Auxiliary power will be furnished by a 100 hp Mercedes-Benz Diesel.

First destination of young builders Murphy and Kuntz after launching, will be a shakedown cruise to Acapulco.

Ericson 23 Association Formed

Shown readying his Ericson-23 for summer activities is Fleet Captain Mark Goldberg of Marina del Rey's newly formed Southern California Ericson-23 Association. Other officers of the new group are: Don Cronan, Chairman; Joanne Efron, Secretary; and Jane Cardoza, Treasurer.

Thursday night races for this class are now being held, and will continue

through the summer, with a starting time of approximately 6 p.m. More details on these may be had from Bill Grant, 823-6321.

Also, regular meetings are planned for the second Saturday of each month, and a cruise to the Isthmus is scheduled for the weekend of June 12-14, with a meeting and cookout ashore Saturday evening, June 13. Further details about these activities may be had from Don Cronan at 542-1829.

BOATERS URGED TO CHECK FIRE HAZARDS

Due to an unusually high number of recent hazardous incidents here, boatowners are urged by the Marina del Rey division of the Los Angeles Fire Department to personally check on the following items:

1. Loose fuel connections at main fuel tank hoses, and also at fuel lines, fuel pump, and carburetor connections.
2. Proper venting of fuel tank. All such tanks should vent outside the boat.
3. Proper air circulation in engine compartments, bilges, and lower areas serviced by blower.
4. Loose electrical connections at the battery, spark plugs, blower, or any electrical switch.

Recent events have proven the value to boatowners of personally making these simple checks often, at regular intervals, and particularly after any repair job or other change in a boat's condition.

Emergency number for fire or rescue service is OR 7-1181. Still available from the Fire Department are convenient telephone stickers containing this number, which may be had for the asking by calling 823-3773.

Winner of the first 1971 Prince of Wales match race at Marina del Rey last month was California YC, represented by young skipper Bob Burns (left). Representing Del Rey YC in the Soling event was skipper Dan Bovill (right).

Final competitors in the NAYRU sanctioned match race series - to be determined by a series of run offs held by YC's throughout the nation - will race next year in New Orleans.

Crewing for Burns were Tom Tomberg and Sam Crawford. Crewing for Bovill were Dave Klein and Peter Kaplan.

ENGINE FLUSHING A DRAG?

**Not for me . . .
My J.P. Flushing
Valve is at Work
. . . RIGHT NOW!**

I used to worry about saltwater corrosion in my engine and exhaust system until I spent 20 minutes installing my J.P. Automatic Freshwater Flushing System.

No more "Rube Goldberg" equipment that doesn't work . . . now my flushing chores are as easy as hooking up a hose to my J.P. Valve Inlet Deck Fitting and turning on the water. I'm freshwater flushing my engine and exhaust system with the easiest, most effective flushing system available. 3 minutes of automatic, effortless flushing protects my complete power plant, freeing me from work and worry . . . in fact, I could be doubling my engine's life!

The J.P. Marine Products people supplied me with a Complete Kit, including patented Flushing Valve, chrome plated fresh water Inlet Deck Fitting (with dust cover), Hose Adapter and Pressure Relief Valve. They also told me the kit'll do the job on Inboards, Inboards/Outboards and all power plants.

Relax and do YOUR freshwater flushing the J.P. Way . . . I do, and I love it!

Available at Better Marine Dealers and Repair/Service Centers . . .

HERE'S THE HEART OF THE J.P. FRESHWATER FLUSHING VALVE SYSTEM . . .

Marina del Rey Dealers:

Tahiti Ship-Rite
Marine Propulsion Co.
Al's Outboard Service
Imperial Yacht Service
Windward Yacht Service
Noya Marine Supply
Duvalls Marine Service
Jefferies Marine Supply

- It's the only system that flushes the inside of the engine and the entire cooling system at the same time. The J.P. Valve automatically closes the saltwater intake and permits only fresh water into the engine and exhaust system.

- The engine can be flushed in or out of the water.

- If the inboard/outboard boat is out of the water, the J.P. Valve will provide enough water for flushing the outdrive unit while the engine is running.

Open Letter To Boatowners—

After many years spent in almost all phases of the Marine Industry we have now formulated a plan which combines most of the services needed by boatowners into a single multi-service operation. We are, under this plan, able to offer you substantial CASH SAVINGS!

By forming American Mariners Yacht Club it is our objective to perform most of the boating services you need at minimal prices and at maximum convenience to you as a member.

Sincerely,
AMERICAN MARINERS YACHT CLUB
